# INSTALLATION INSTRUCTIONS

## Config File Basic Changes:

There are only four changes to the config.php file.

### 1. Affiliate ID's

- a). Google ID: Login to [adsense.google.com](https://adsense.google.com) to retrieve your “pub” ID. *(Or register free if you're not yet an AdSense Publisher.)* Copy/paste your AdSense ID including the “pub” portion so it looks just like our ID. Ie. Keep the single quotes.
- b). Clickbank: Register at <http://sonicpoint.com/cbank.php> . Replace our ID.
- c). Amazon ID: Register at <https://affiliate-program.amazon.com> **after your site is operational**. Once approved, edit your config file with your ID.

### 2. Your Site Info

- a). Site URL: This **needs** the **http://** portion of your website address **and** the **trailing slash** because it is used throughout the site.
- b). Show Site URL: This is what shows under the Site Title in the header.
- c). Tag By Default: Displays the videos matching your default tag if nothing is searched or clicked on.\
- d). Tag List: These are keywords used for search engine optimization and as linked tags on the left side of the site that are seen as individual pages by the search engines. **No editing necessary** – unless you want to.

**SITE INSTALLATION** is available for \$19.95. Add another \$9.95 for initial responder *code* set up (not follow ups). Go [here](#)

## **Auto Responder:**

This video site includes a space to add your own auto responder code. It could be [getresponse.com](http://getresponse.com), [aweber.com](http://aweber.com) or your own. Either way, **to maintain the same look** as the [demo site](#), just replace the variables and hidden lines – *not* the entire FORM code.

**The files where you replace the code are in the Templates folder.** They are **../templates/video.html** and **../templates/sort.html**.

NOTE: The title “Free Weekly Video Alert” is to get subscribers to your auto-responder for return visitors and hopefully increased income. You create whatever you want in the email follow ups. The website itself pulls the most recent videos based on the tags or keyword search. Therefore, if there are updates from that tag, it's shown automatically. There's nothing you have to do.

**Here's an example of your email follow ups:**

**SUBJECT: Weekly Video ALERT from YourVideoSite.com**

**EMAIL:**

Hello \$firstname,

This is \_\_\_\_\_ from YourVideoSite.com reminding you to explore the new and exciting [iPad] videos. Simply click the link below to see the latest videos.

But first, please consider...

[Ways To Make Money With Mobile Devices](#)

Don't miss out on the chance  
to fatten your wallets every week.  
Go Here: [yoursite.com](#)

\$firstname, please visit the most recent [iPad] videos right now. Go Here: [yoursite.com](#)

Have a great week,

YourName  
YourSite.com

Just repeat this example, or your own, for the next 52 weeks. Example only.

## UPLOAD FILES:

**NOTE:** Upload **ALL** files keeping the same directory (*a/k/a folder*) structure. You **do not** upload the folders labeled *instructions, license or salespage*.

1. Upload *all* **.php** files and **.htaccess** file in ASCII format if you're using an FTP program. If you're using your Web Browser and CPanel or Filezilla, it should upload in the correct format automatically.
2. Upload all image files (*.png, .gif, .jpg*) in Binary format.
3. In your Web Browser, go to YourVideoSite.com and test the site. Then begin your marketing efforts and prosper!

**SITE INSTALLATION** is available for \$19.95. Add another \$9.95 for initial responder set up. Go [here](#)

**ATTENTION:** IF YOU ARE GETTING ERROR MESSAGES WHEN CLICKING ON THE TAGS AND OTHER NON-AFFILIATE LINKS AT YOUR NEW SITE, YOUR .HTACCESS FILE IS PROBABLY NOT SET UP CORRECTLY. *THIS IS THE MOST COMMON SUPPORT QUESTION FOR OUR VIDEO SITES.*

THE **.HTACCESS** FILE IS A SPECIAL FILE. THE NAME OF THE FILE IS UNIQUE AND NOT OUR CHOICE. THERE IS NOTHING BEFORE THE PERIOD AND ONLY HTACCESS AFTER THE PERIOD. IT IS *NOT* HTACCESS.TXT OR ANY OTHER VARIATION.

**TO GET THE PROPER CODE FOR THE FILE, OPEN AND READ THE HTACCESS\_README.TXT FILE THAT SHOULD BE WITHIN YOUR ZIP FILE. OR DOWNLOAD [THIS FILE](#).**

***IT SHOULD LOOK LIKE THIS:***

**#php\_value error\_reporting 0**

**#DIRECTORYINDEX MAIN.PHP**

**REWRITEENGINE On**

**REWRITERULE VIDEO/([^\./]+)?\$ INDEX\.PHP?VIDEO=\$1 [L]  
RewriteRule tag/([^\./]+)?\$ index\.php?tag=\$1 [L]  
RewriteRule tag/([^\./]+)/([^\./]+)?\$ index\.php?**

**tag=\$1&page=\$2 [L]**

**REWRITERULE TAG/([^/]+)/([^/]+)/([^/]+)?\$ INDEX\.PHP?**

**TAG=\$1&PAGE=\$2&SORT=\$3 [L]**

## Experience MORE Automated Income

THESE **PRE-BUILT, CASHFLOW WEB SITES** ARE AUTOMATED AFFILIATE SITES. ONCE INSTALLED, YOU SIMPLY PROMOTE THE SITE AND **YOUR INCOME IS ON AUTO-PILOT**. ALTHOUGH INCOME IS DEPENDENT ON YOUR EFFORTS, YOU CAN **EASILY MAKE TO \$1,500/MO OR MORE PER SITE**.

For each site, you need web hosting, ability to edit a php file and upload files. Or, you can hire our support staff -- *for less than a dinner for two* -- to install your site so you're operational and ready for profits.
